

CAREER OBJECTIVE

Motivated Flutter developer with a strong foundation in Dart and mobile UI design. Looking to join a forward-thinking team where I can contribute to building efficient, scalable apps and grow as a developer through real-world challenges.

EDUCATION

<b>B.Tech, Computer Science &amp; Engineering</b> CMR Engineering College Percentage: 8.90%	2022 - 2026
<b>Senior Secondary (XII), CBSE</b> Science Bsrkv Percentage: 79.20%	2022
<b>Secondary (X), CBSE</b> St Michael'S School, Secunderabad Percentage: 84.00%	2020

PROJECTS

<b><a href="#">Flappy Bird Game ↗</a></b> Mar 2025 Flappy Bird Clone (Flutter + Flame Engine) <ul style="list-style-type: none"><li>Developed a Flappy Bird-style side-scroller game from scratch using Flutter and the Flame game engine.</li><li>Implemented core game mechanics like gravity, collision detection, obstacle spawning, and score tracking.</li><li>Used Flame's game loop, sprite rendering, and component system for smooth performance and responsiveness.</li><li>Focused on optimizing game physics and UI for a seamless mobile gameplay experience.</li></ul>	<b><a href="#">Attendance Management System ↗</a></b> Jan 2025 - Feb 2025 Dhondi App UI Clone (Flutter) <ul style="list-style-type: none"><li>Recreated the UI of my college's attendance app (Dhondi) using Flutter, inspired by my own low attendance experience.</li><li>Designed clean, responsive screens replicating key features like subject-wise attendance and dashboard views.</li><li>Focused purely on frontend; didn't have backend access but used the project to sharpen my UI skills.</li><li>Sparked my interest in backend development — planning to build the full version soon!</li></ul>
<b><a href="#">Restaurant Menu Application ↗</a></b> Feb 2025 Coffee Ordering App (Flutter) <ul style="list-style-type: none"><li>Designed a modern café ordering app to make casual hangouts smoother and less awkward — just click, sip, and vibe.</li><li>Built a clean, intuitive UI with easy navigation for browsing the menu, customizing orders, and quick checkouts.</li><li>Created with introverts, romantics, and last-minute planners in mind — because coffee should come before small talk.</li><li>Developed using Flutter, with future plans for backend integration to enable real-time ordering and table pickup.</li></ul>	

SKILLS

<ul style="list-style-type: none"><li>Flutter</li><li>iOS</li><li>CSS</li><li>REST API</li></ul>	<ul style="list-style-type: none"><li>Android</li><li>Dart</li><li>JavaScript</li><li>Firebase</li></ul>	<ul style="list-style-type: none"><li>SQLite</li><li>HTML</li><li>C++ Programming</li></ul>
